

Nature Walk Agreement

DogWood Kennel, LLC. (DWK) offers Nature Walks for qualifying pets who are in our care, custody, and control. While we do all we can to ensure the safety of your pet, we recognize that some activities carry more risk than others. We want to make sure you are aware of some of these concerns before we take your pet on a hike outside our fences.

KNOWN RISKS

- Giardia parasites (from drinking water in puddles contaminated from wildlife)
- Ticks & fleas and the inherent infestations and diseases that can result
- Encounters with wildlife or other critters found in Indiana woodlands
- Exposure to elements in nature: parasites, poison ivy, animal scat, burrs, or angry snails

ANTICIPATED BENEFITS

- A tired by happy pet
- Connections to nature
- A special bond with your pet's personal DWK handler
- Your pet's intellectual stimulation from having a new experience
- A greater love of DWK (allowing you to leave them without guilt when you have future trips away).

By signing this document you release DogWood Kennel, its staff, and its owners from any liability associated with these activities.

This release remains in effect unless and until you provide DogWood Kennel with a written and acknowledged revocation to end the agreement.
